

A COMMUNITY EFFORT TO SAVE LIVES!!

Grant Applicant,

San Diego Project Heart Beat (SDPHB), San Diego County’s Public Access Defibrillation Program, has one main goal: “to save lives through early defibrillation.” To reach that goal, our objective is to make automatic external defibrillators (AED’s) as accessible as fire extinguishers throughout the county.

Joining the SDPHB team is easy, accessible and affordable. Realizing this is not necessarily the case for all groups, businesses and organizations, SDPHB is offering financial assistance to provide Phase II, PAD Program Management at a discounted rate to qualifying applicants. A 50% discounted rate will apply to the fee for the first AED covered by the Service Level Agreement. The cost of \$25.00 per AED unit thereafter, up to ten AED units, will remain the same as stated in the program price list.

Simply complete the attached application form. Please be thorough in expressing the requested information and feel free to add any additional information or pages that would benefit a positive approval of your application. Send completed grant application forms to:

San Diego Project Heart Beat
10405 San Diego Mission Road, Suite 100
San Diego, CA. 92108
Forms may also be faxed into (619) 243-0913
